PHILADELPHIA, March 18.—Fred Fulton, who has been in good standing as a plasterer, but he lost his card in the modern order of knockers-out last night when he failed to finish Bartley Madden of New York with the six-round limit at the Olympia A. Driscoll In Big Game Tomorrow

The Red Crowns are bending every effort toward winning the Hammond Legion game tomorrow evening at the Central school gym. Every member of the team is working super-hard to vanquish the Legion machine and every fan in Whiting is raising his voice in joyful noises, inspiring Paddy Driscoll and his gang to greater efforts. In fact the Red Crowns were not even excited over the big game beyond the fact that they seem to think they will win all hands down. Interest in the Hamdian struggle which promises to exceed any indoor contest ever put on in Hammond is so contagious at Whiting that a large number of business men from the oil town have asked for reserved seats, but due to the fact that no reservations have been made the Whiting clan will have to hustle to get into some good seats.

While the Crowns are cock sure of a win, the Legioners equally feel confident. Last night the locals were under the care of Coach Veenker and the service players were seen developing a lot of stuff that has been missing all season. Several players have been showing up exceptionally well and Manager Charney will have a hard job in picking the first five men to start.

Atchison, the General American south-paw, and Clarence Thompson were out for the first time this week and both showed regular stuff. A defense that will baffle the Whiting crew seems to be the main objective of the Hammond players. Just what the visitors will pull is not known but the game promises to be a good fight. The lineup for the big contest will be announced in tomorrow's edition of THE TIMES.

Ray Misses Two-Thirds Mile Record by a Wink

NEW YORK, March 17.—Joie Ray of the Illinois A. C. holder of several middle distance running titles, failed last night in his attempt to create an indoor record for two-thirds of a mile, at the annual games of the Samaritan A. A. in the 27th regiment armory. Ray fell two-fifths of a second short of the 2:44 2-5 mark of Mel Sheppard, which has been in the record books for ten years. Ray's time was 2:44 4-5.

Though he failed in his effort at a record, Ray demonstrated his superiority over the three runners who tied the starting mark with him. The Chicagoans' rivals included Sid Leslie, Millrose A. A.; Harry Winger, Paulist A. C. and Allen Swede, Princeton middle distance.

Jamieson Claims a Foul; Christiano Beats Green

KENOSHA, Wis., March 18.—Ted Jamieson of Milwaukee was put out of commission by a questionable blow from George K. O. Brown's left hand in the fourth round of the ten-round windup of the boxing show last night.

The Greek caught Jamieson with three left hooks in a row. On the third one Jamieson sank to the mat and had to be carried from the ring. Dr. Halm, the examining physician here, declared that the blow was questionable. Before the blow they had put up a splendid scrap. The money due the fighters was held up by the commission.

BIG WRESTLING MATCH

The wrestling match between Louis Pergandi of Gary and George Vassel of San Francisco, to be staged at the Gary Theatre tomorrow night is slated to be the best and most sensational match seen in Gary this season. It is to a finish, winner take all.

A side bet of two thousand dollars has been posted this week.

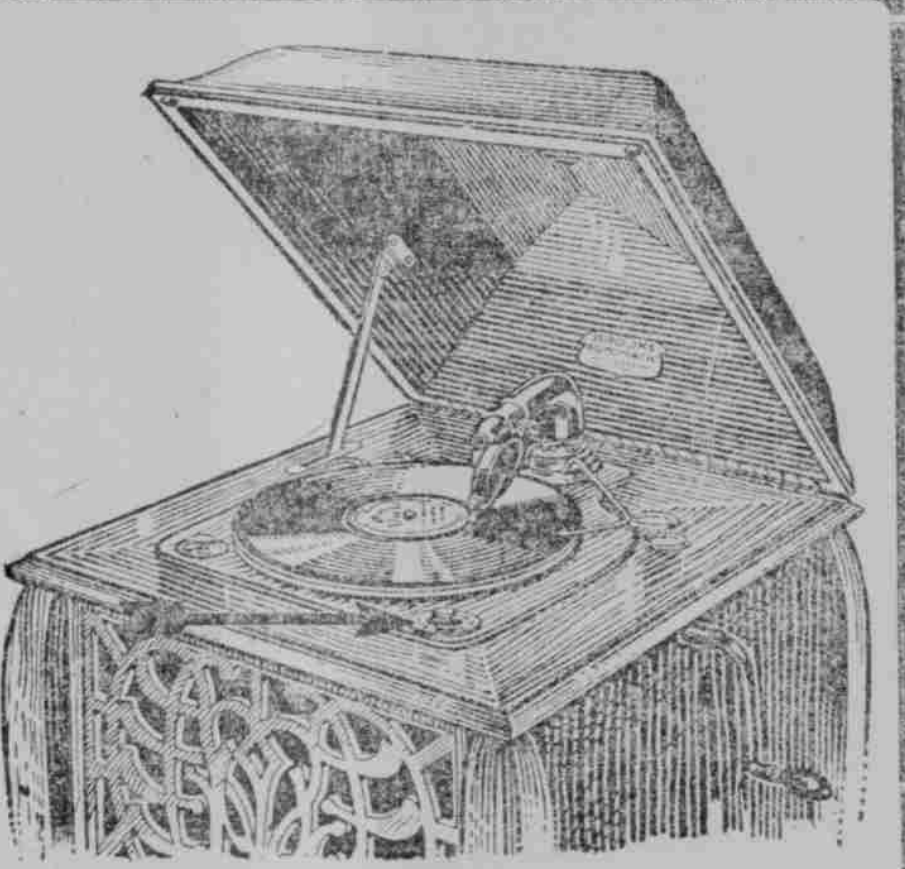

This match was to have been a private affair, but Matt E. Korn of the company now playing at the Gary theatre, added two hundred dollars more to the sum in order to have them wrestle at the Gary theatre in public.

This sum of two thousand, two hundred dollars, is probably the largest amount of money ever involved in wrestling or boxing, at one time, in Lake county.

Wrestling has become one of the form most sports in Gary. Mayor Hodges having placed the ban on public boxing some time ago. Since that time the wrestling game has come into favor and has been drawing packed houses.

Sun's Immensity.

The sun, which is by no means a large star, as stars go, could easily contain within its boundaries the entire earth and moon and the distance between them, says the Scientific American. In fact, three systems like that consisting of earth and moon could be strung out in a row through the center of the sun, without coming within 50,000 miles of his surface on either side.
